PERMACULTURE DESIGN COURSE

February 10–17, 2020
Mainsprings Campus, Kitongo, Tanzania

Join Mainsprings for our second official 72 credit hour Permaculture Design Certification Course in February 2020. The course will be held on the Mainsprings farms in Kitongo, Tanzania.

The course will be taught by internationally renowned permaculture expert Mark Shepard and Mainsprings' Head of PIT, Max Kitafula, and will cover the various philosophies and techniques used by thousands of agriculture professionals to develop environmentally friendly and sustainable ecosystems for anything from backyard gardens to large scale farms.

Participants will receive an internationally recognized certificate in permaculture through Bill Mollison's Permaculture Designers Manual.

Course Fee: $900 (discounts provided for East African residents)
Housing: tents and food are included
(Luxury Bungalows are available for additional cost)

Spaces are limited
